

Milford Care Centre Social Work Department

Parenting programme for those caring for bereaved children

Bereavement Support Service

Parenting programme for those caring for bereaved children

The Social Work Department at Milford Care Centre recognise the challenges of parenting bereaved children. In response to this the department offers a special Parenting Bereaved Children Programme.

This programme is suitable for parents caring for children who are bereaved through the death of a parent or sibling.

It is an 8 week structured group programme providing a place for parents to meet and learn from each other in a safe and confidential environment.

Each week addresses a particular aspect of the parenting skills needed for managing grief in both parents and childrens' lives.

Where? Milford Care Centre,
Castletroy, Limerick.

Cost? There is no fee for the course.

If you would like further information about the Parenting Bereaved Children programme please contact the Social Work Department during office hours on 061 485800
